# NPDES Compliance Inspection Manual

**July 2004** 

U.S. Environmental Protection Agency
Office of Compliance
Office of Enforcement and Compliance Assurance
1200 Pennsylvania Avenue, N.W.
Mail Code 2223-A
Washington, DC 20460

## **FOREWORD**

The National Pollutant Discharge Elimination System (NPDES) Compliance Inspection Manual has been developed to support personnel that conduct NPDES inspections of wastewater treatment plants, storm water industrial and construction sites, pretreatment facilities, biosolids handling and treatment facilities, Concentrated Animal Feeding Operations (CAFOs), municipal wastewater collection systems (combined and separate from storm water) as well as pollution prevention and multimedia concerns. These procedures are fundamental to the NPDES compliance program and provide inspectors with a method for conducting inspections.

The manual presents standard procedures for inspections. In addition to the manual EPA expects its inspectors to have completed training to develop a good working knowledge of the subject related problems, regulations, control technologies, and Best Management Practices. EPA Order 3500.1, Training and Development for Compliance Inspectors/Field Investigators, establishes the Basic Health and Safety and Program-Specific Curricula for EPA compliance inspectors before they lead or conduct inspections independently. The manual will serve as a reference for the experienced inspector.

Regional and State personnel are encouraged to provide U.S. Environmental Protection Agency (EPA) Headquarters with changes or information that would improve the manual. Comments, information, and suggestions should be addressed to:

Clean Water Team
Compliance Assessment and Media Programs Division (2223A)
Office of Enforcement and Compliance Assurance
U.S. Environmental Protection Agency
1200 Pennsylvania Avenue, NW
Washington, DC 20460

The information contained in this manual is comprehensive and designed to address a wide range of activities. Since each inspection may not involve all activities, the inspector should refer to those parts applicable to the particular inspection.

The manual is organized into two parts. The first part, covering basic inspection components, consists of seven chapters. The second part includes specific information on different types of inspections.

#### **Basic Inspection Components**

- Chapter One, "Introduction," describes the NPDES program and provides general information relating to legal authority and inspector responsibilities.
- Chapter Two, "Inspection Procedures," discusses general procedures common to all NPDES inspections, including pre-inspection preparation, entry, opening conference, documentation, closing conference, and the inspection report.
- Chapters Three through Seven provide the specific technical information necessary to conduct the full range of NPDES compliance inspection activities. Each chapter describes procedures for the major technical activities involved in compliance inspections:
  - Chapter Three, Documentation/Recordkeeping and Reporting
  - Chapter Four, Facility Site Review
  - Chapter Five, Sampling
  - Chapter Six, Flow Measurement
  - Chapter Seven, Laboratory Procedures and Quality Assurance

#### **Specific Information**

- Chapter Eight, Toxicity
- Chapter Nine, Pretreatment
- Chapter Ten, Sewage Sludge
- Chapter Eleven, Storm Water
- Chapter Twelve, Combined Sewer Overflows
- Chapter Thirteen, Sanitary Sewer Overflows
- Chapter Fourteen, Pollution Prevention
- Chapter Fifteen, Multi Media Concerns
- Chapter Sixteen, Concentrated Animal Feeding Operations

Within each chapter, tables illustrate the topics discussed in the text. These are located at the end of the chapter subsection in which they are referenced. Additional information and figures are also included in the appendices to the manual. As appropriate, references and checklists are provided at the end of the chapter. The checklists presented in this manual are intended as guidance. They can be used as presented or modified to address the needs of the inspection authority. (More detailed checklists/guidance for any individual inspection type may have also been developed by EPA or State agencies and are presented in the guidance materials specific to that type of inspection.)

It should be noted that the text is written from the perspective of the Federal Clean Water Act requirements. State NPDES inspectors using this manual may find that State rules and procedures on such topics as notice to the permittees vary to some degree from the material found in this manual.

## **ACKNOWLEDGMENTS**

We would like to thank the considerable efforts and cooperation of the persons who reviewed this document and provided comments.

This manual was revised under the direction of Peter Bahor, who chaired the workgroup. Extensive reviews were conducted by EPA Headquarters and Regional Offices. These reviews provided valuable comments. A special thanks to the following work group participants for their assistance in updating this manual:

#### **Headquarters - Office of Compliance**

Walter Brodtman, Environmental Engineer, Compliance Assistance and Sector Programs Division (CASPD).

Sharie Centilla, Environmental Protection Specialist, CASPD,

Elson Lim, Environmental Engineer, Compliance Assessment and Media Programs Division (CAMPD), OC

Phyllis Flaherty, Chief, Compliance Monitoring and Water Programs Branch, CAMPD Virginia Lathrop, Environmental Scientist, CM&WP Branch, CAMPD Iliana Tamacas, Environmental Scientist, CM&WP Branch, CAMPD Julie Tankersley, Environmental Protection Specialist, CM&WP Branch, CAMPD

#### Headquarters - Office of Regulatory Enforcement, Water Enforcement Division

Kevin Bell, Environmental Scientist Lauren Kabler, Attorney Advisor Sushila Nanda, Attorney Advisor Roger Gorke, Environmental Protection Specialist, (on detail)

#### **Headquarters - Office of Wastewater Managerment**

Robert Bastian, Senior Environmental Scientist Wendy Bell, Environmental Engineer, Tim Dwyer, Environmental Engineeer, Robin Kime, Environmental Protection Specialist, Laura Phillips, Biologist, Water Permits, Division, Jan Pickrel, Pretreatment Team Leader, Alan Rubin Ph.D., Senior Scientist John M. Walker Ph.D., Senior Physical Scientist,

#### **Headquarters - Office of Science and Technology**

Marion Kelly, Environmental Protection Specialist

## Region III - Office of Compliance and Enforcement, Water Protection Division Jon Hundertmark, Environmental Engineer,

#### Region IV

Mike Bowden, Environmental Engineer, Enforcement and Investigations Branch, Region Athens, GA

Ron Phelps, Region IV; Environmental Scientist, Enf. And Investigations Branch, Science and Ecosystems Support Division

#### Region VI -Compliance Assurance and Enforcement Division

Ken Aubuchon, Environmental Engineer James H. Eng, Environmental Scientist Juan Ibarra, Environmental Scientist Phillip Jennings, Whole Effluent Toxicity Coordinator

#### Region IX

Steve Fuller, Water Inspector Debra L. Denton Ph.D, Environmental Scientist

#### Region X

Jim Corpuz, Environmental Protection Specialist, NPDES Compliance Officer, Office of Water Andy Hess, Environmental Scientist, Office of Env. Assessment, Investigations and Engineering Unit

#### Office of Research and Development, Duluth, MN

Teresa Norberg-King, Research Aquatic Biologist

#### **National Enforcement Investigations Center (NEIC)**

Doreen Au, Chemical Engineer Linda TeKrony, Environmental Engineer Daren Vanlerberghe, Environmental Engineer Jacquelyn Vega, Environmental Engineer

## **DISCLAIMER**

The purpose of this guidance is to provide inspectors with an in-depth knowledge of the National Pollutant Discharge Elimination System (NPDES) inspection process. Specifically this manual provides information and references on the components necessary to complete the various types of NPDES inspections. Many of the chapters also include checklists. It is important that an inspector not rely solely on the checklist, but use it as one of the tools when conducting an inspection and evaluating compliance. Finally, the mention of trade names, commercial products, or organizations does not imply endorsement by the U.S. Government.
